**Albi Clad TF Trowel Grade  
Water based Intumescent Fireproofing Parch**

**Application Instructions.**

Albi Clad TF TG (Trowel Grade) Intumescent Fireproofing is designed for jobs not allowing or justifying the use of airless spray equipment.

Albi Clad TF TG can be applied as follows:

1. Order trowel grade Albi Clad TF TG .
2. Apply by trowel or palming method. Wet trowel thoroughly with water and apply material. Do not work the Albi Clad TF TG too much, as it will tend to dislodge itself from the surface to which it is being applied.
3. To patch damaged area, first remove any loose particles. Then apply Albi Clad TF TG with sheet-rock broad knife.

Please refer to Albi Clad TF Application Guide for general Application guidance and surface preparation requirements:
