

Albi Manufacturing
Division of StanChem, Inc.
401 Berlin Street
East Berlin, CT 06023 USA

Re: Albi Clad TF Compliance with LEED Requirements

Albi Clad Thin Film is in compliance with the applicable portions of the LEED requirements for Low Emitting Materials – Paints and Coatings (Step H – LEED Credit EQ4.2). The VOC content of Albi Thin Film is 15.6 grams/liter which is below the level of 50 grams/liter established by the Green Seal Standards in GS-11 for flat interior Paints and Coatings. There is no recycled content or harvested content

Point of Manufacture is East Berlin CT. If the job site is less than 500 miles away we qualify for MR credit 5.

Should you have any questions or need additional information, please do not hesitate to call me at (860) 828-0571 ext. 260.

Sincerely,

Joseph S. Shaskus,
Chief Engineer
StanChem, Inc.
