

Suitable for low profile LED lights up to 4"

The FF109-200 is a cone-shaped intumescent enclosure which has been designed to help protect openings for **4" low profile LED downlight fixtures**. The high expansion and insulating properties of the material ensure that both, flame spread and heat transmission, are stopped for 60 minutes. The **flexible material** allows the cover to get rolled up for easy retrofit or new construction installation.

Key Benefits

- ⇒ **Easy Installation** - can be fitted in seconds - no screws, drilling or additional sealant required
- ⇒ **Can be folded** and fitted from above or below the ceiling
- ⇒ 60 minute protection
- ⇒ Flexible material enables the cover to be fitted around obstacles or retro-fitted
- ⇒ Enhances the acoustic protection of the ceiling
- ⇒ Maintenance free
- ⇒ **Lightweight**
- ⇒ **The only** fire tested solution for retrofit applications
- ⇒ Fits most 4" **low profile LED** downlight fixtures and **LED wafer lights**

Approvals

ETL—Intertek certified to maintain the fire rating (1 hour) of fire-rated floor/ceiling assemblies.
